This hands-on, interactive class will help HVAC contractors stand out from the competition and help their customers stay cool and save money by complying with the new Title 24, Part 6 building energy standards.

Join us for this class and learn the essentials:

- When do the standards apply to a residential HVAC project and when don't they?
- Which requirements are triggered when you're just changing part of the system?
- When do you need to involve a HERS Rater?
- How do you navigate the HERS registration and verification process?
- What compliance forms will the building department want from you and how do you fill them out?
