

Energy Code Ace is Decoding California’s Building Energy Code

Free Online Session Offered on Title 24, Part 6 Requirements for Small Commercial HVAC Changeouts

Release Date: February 10, 2014

Contact: Energy Code Ace Outreach: outreach@energycodeace.com

The California Statewide Codes & Standards Program is pleased to announce **Decoding HVAC: Let’s Talk Verification of Small Commercial HVAC Changeouts** - its FREE 90-minute interactive online event to discuss and decode Title 24, Part 6 requirements for small commercial HVAC changeouts under the 2008 AND 2013 standards. Although originally designed for building department personnel, due to the high level of interest from other industry professionals, we are now opening these sessions up to a wider audience.

Not your typical webinar, this event is designed to both offer and gather information on technical aspects of the code, “best practices,” and the challenges you may face in the field. Our technical experts will guide the discussion based on the answers you and your colleagues give to questions we’ll ask you at registration.

[Gina Rodda](#) of Gabel & Associates, LLC along with her guest speaker David Wylie, of ASWB (formerly ASW) Engineering Management Consultants, Inc., want to hear from YOU on small commercial HVAC changeout issues like:

- Installation practices
- System requirements
- Concerns as we transition from the 2008 to 2013 energy standards
- Available job aides and resources

Dates & Times: 4 sessions currently offered, choose the one that works for you — *availability subject to enrollment levels:*

Date	Time
Monday, March 3	8:00am – 9:30am
	3:00pm – 4:30pm
Tuesday, March 4	8:00am – 9:30am

More Information: <http://bit.ly/1k565H1>

This is the fourth in a series of free online “Decoding” events, all of which will follow a similar discussion format. If you would like to receive notice of future events, please contact us at info@energycodeace.com.

About Energy Code Ace

The Energy Code Ace website is developed and provided by the California Statewide Codes & Standards Program, which offers free building energy code training, tools and resources for those who need to understand and meet the requirements of Title 24, Part 6. The program aims to advance the adoption and effective implementation of energy efficiency measures and building practices to lock in long-term energy savings. The program is funded by California utility customers under the auspices of the California Public Utilities Commission and implemented by Pacific Gas and Electric Company, San Diego Gas and Electric, Southern California Edison and Southern California Gas in support of the California Energy Commission. Find out more at www.EnergyCodeAce.com.
